2. Legislation and guidance

This policy and information report is based on the statutory [Special Educational Needs and Disability \(SEND\) Code of Practice](#) and the following legislation:

- [Part 3 of the Children and Families Act 2014](#), which sets out schools' responsibilities for pupils with SEN and disabilities
- [The Special Educational Needs and Disability Regulations 2014](#), which set out schools' responsibilities for education, health and care (EHC) plans, SEN co-ordinators (SENCOs) and the SEN information report

3. Definitions

A pupil has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for them.

They have a learning difficulty or disability if they have:

- A significantly greater difficulty in learning than the majority of others of the same age, or
- A disability which prevents or hinders them from making use of facilities of a kind generally provided for others of the same age in mainstream schools

Special educational provision is educational or training provision that is additional to, or different from, that made generally for other children or young people of the same age by mainstream schools.

5. SEN information report

5.1 The kinds of SEN that are provided for

Our school currently provides additional and/or different provision for a range of needs, including:

- Communication and interaction, for example, autistic spectrum disorder, speech and language difficulties etc.
- Cognition and learning, for example, dyslexia, dyspraxia,
- Social, emotional and mental health difficulties, for example, attention deficit hyperactivity disorder (ADHD),
- Sensory and/or physical needs, for example, visual impairments, hearing impairments, processing difficulties, epilepsy
- Moderate/severe/profound and multiple learning difficulties

5.2 Assessing pupils needs

Lisburne School has developed an adapted curriculum which anchors our assessment systems to our philosophy of learning. We value the potential of a range of data to build the broad picture of progress for our pupils, subtle progress is significant due to the complex needs of our learners. School uses a data system which measures qualitative data through a quantitative system. We have a clear and rigorous moderation process within school and attend regular LEA moderation sessions with a range of external professionals from support/ resource and special schools to promote and ensure robust data. We have developed a range of individual learning programmes for some of our learners because we are aware that with assessment "one size does not fit all".

5.3 Consulting and involving pupils and parents

We report to parents through a range of development meetings which progressively build to capture an accurate picture of individual progress.

- Lisburne links therapeutic input to ensure the holistic progress of learners is not limited simply to academic processes.
- Annual Review at Lisburne School are held once a year for all pupils. Parents are invited via letter to these reviews at least 2/3 months prior to the meeting. All professionals working with the child are invited to the review. Children are invited to join the review and share their voice, children who cannot access the meeting will have their voice shared through video evidence.
- When writing IEP's, all children in KS2 and some children in KS1 set their own targets and evaluate their previous targets. Parents and carers are also to contribute to targets. Speech and language targets and occupational therapy targets are also included on the child's IEP.
- Parents and carers are invited to contact school at any time if they need advice or support in regard to their child's education.
- The school uses Tapestry / Dojo as a means of regular accessible communication with parents

5.4 Assessing and reviewing pupils' progress towards outcomes

The class teacher and assessment coordinators meet to discuss pupil progress each term.

This will draw on:

- The teacher's assessment and experience of the pupil
- Their previous progress and attainment and behaviour
- The individual's development
- The views and experience of parents
- Pupil voice
- Advice from external support services.

We will regularly review the effectiveness of the support and interventions and their impact on the pupil's progress.

5.5 Supporting pupils moving between phases and preparing for adulthood

We implement a rigorous transition program to support our children as they move on in their education.

- All children attend transition visits to their new setting, supported by familiar members of staff.
- Photograph and symbols are used to support individuals
- Social stories are available where appropriate
- Staff will meet prior to any transition to discuss the individuals and their needs

In preparation for adulthood, we encourage cross-curricular life-skills opportunities for all children, they will learn simple cookery skills, road safety and how to function in the community.
